choke chain			other (please describe):												
Is your dog play motivated? Y N						Excited for toys/balls? Y N									
Love squeaky toys? Y N						Motivated for touch/scratches? Y N									
Please check any that apply. My Dog is/does:															
playful				shy				works hard for treats				is indifferent towards treats			
works hard for toys				barks at appropriate times				barks when alone				barks at people			
barks through windows				fence reactive				scares people				barks 'hysterically'			
barks at other dogs				barks at other animals				barks at doorbell/knocks							
eager to meet new people				aggressive towards new people				aggressive towards all people							
aggressive towards only certain people (who):															
aggressive only when dog has/protects (what):															
fearful about new people				fearful about new places				fearful about other animals				fearful about everything			
quivers				tries to run away/hide				ignores/shuts out new things				growls			
could care less				pulls at leash				pulls at leash to the point of self choking				lunges on leash			
heels well on leash				heels well off leash				would drag you if it could/does				chews at leash			
meanders, not in a official heel, but comfortably for us						uses long lines/retractable						roams freely			
jumps up on people (non aggressively)				pees when approached				rolls over when approached							
has good people skills				doesn't want to be touched/picked up				distracted easily				ignores owner/s around other people			
steals food		gets into garbage		is very vocal		active		quiet/relaxed		doesn't like to be awoken					
easily startled		has a place where dog expects to be left alone				hyperactive		listens well							
very focused and attentive				knows commands, but ignores often				rules the house							
will only listen when bribed (if then)				protective of family				needs to be close to family							
needs to be close to just one family member				protective of property				follows around house/yard							

is a 'loner'	confident alone	prefers dogs over humans	sensitive to sounds	reactive to sounds			
sensitive to movement (cars, bikes, skateboards, people, etc)		reactive to movement					
sensitive to being touched/Where:							
learns quickly	slow learner	completely potty trained	rare accidents	goes potty on command			
frequent potty accidents	crate trained when alone	crates at night	prior crate training attempts failed				
is entirely potty untrained	uses pads/box	other:					
welcomes family home frantically	welcome family home calmly	is aloof when family returns					
acts out when family is away If so, how:							
chews toys/bones given	chews everything it can get it's mouth on	chews furniture	chews at self				
makes game of 'keep away' with household objects		digging rarely	digging consistently				
chases tail	buries things	chases moving lights/reflections	has done scratch/claw damages to home				
tries to escape	has done self harm	gentle with mouth	rough with mouth	nips playfully			
nips roughly	mouthing is out of control						
Seeks attention by:							
offering play	nipping	jumping	nudging	sitting quietly	pawing		
other:							
rides in car calmly	rides in car poorly	barks when in car	gets carsick	whines/whimpers			
licks at things/people intensely	licks muzzle often	yawns often	makes sounds when yawning				
Is allowed on, with invitation:							
couch	lap	bed	at table	anywhere	other:		
Invites *itself*, unwanted onto:							
couch	lap	bed	at table	anywhere	other:		
fixates on things (such as):							
chases things (please list):							
vet visits go well	vet visits are stressful	the vet uses a muzzle	sedation has been used				
grooming goes well	grooming is stressful	grooming needs muzzle	sedation has been used				
dog goes to daycare (is so, where, how often):							
Dog is alone:	never	rarely	2-4 hrs a day	4-8 hrs a day	8-12 hrs a day	more often than not	
exercises rarely	exercises on home property only		gets walks rarely	gets walks daily	runs daily		
runs on home property only		runs rarely	plays when exercising (If so, what games):				
When exercised gets (avg):		15 minutes	30 minutes	hour	hours	other:	
Exercised by/at:		for hire walker	family	daycare	dog park	regular park	rural outdoors
neighborhood	yard	in private playgroup					
Owner/s familiar with training methods:							
positive reinforcement		dominance theory		clicker	leash corrections		
other:			Owners prefers/liked:				
Concerns for behavior are:							
new, out of the blue		new, with clear reason		improving, but needs more work			
Unchanging		old habit, unknown origin		getting more frequent/intense			
Jekyll & Hyde without rhyme or reason							
Was the dog ever removed from daycare/training classes for behaviors? Y N							
If so, what happened?							
My dog has bitten when: (list all, with details - where, how bad, why, what was done):							

In addition to questions above, my dog is also scared when/of:

In addition to questions above, my dog is also reactive when:

In addition to questions above, my dog also reacts in these ways:

What punishments are used? (tried and given up and tried and works):

Does the dog listen/handle better for one particular member of the family? If so, who/why?

Its hard to get my dogs attention when (list all):

Aside from questions above, my dog has been muzzled when/by:

It wasn't in the questionnaire, but my dog acts weird when:

I want my dog to learn, in priority order:

I want to learn, in priority order:

I can consistently dedicate practicing new skills per week:

<input type="checkbox"/>	1 hour	<input type="checkbox"/>	5 hrs	<input type="checkbox"/>	10 hrs	<input type="checkbox"/>	no limit	<input type="checkbox"/>	Other:
--------------------------	--------	--------------------------	-------	--------------------------	--------	--------------------------	----------	--------------------------	--------

I/We love these things about the dog:

I get the following get complaints about my dog:

I get the following compliments about my dog:
